

Dr. William W. L. Cheung, FRSC

Professor and Director

Institute for the Oceans and Fisheries
The University of British Columbia

EXPERTISE: Climate change impacts on oceans and fisheries, marine biodiversity, ecological and biogeographic modeling, food security, ocean sustainability, and policy-relevant marine conservation.

EDUCATION :

- PhD in Resource Management and Environmental Studies, the University of British Columbia (2007)
- MPhil in Ecology and Biodiversity, the University of Hong Kong (2001)
- BSc(Hons) in Biology, the University of Hong Kong (1998)

EMPLOYMENT

Rank or Title	Institute	Dates
Director of UBC Institute for the Oceans and Fisheries	Institute for the Oceans and Fisheries, UBC	2021 - now
Professor – Canada Research Chair Tier II (tenured)	Institute for the Oceans and Fisheries, UBC	1 July 2019 - now
Associate Professor	Fisheries Centre, UBC	2014 –2019
Assistant Professor	Fisheries Centre, UBC	2011 –2014
Lecturer (=Assistant Professor) in Marine Ecosystem Services	School of Environmental Sciences, University of East Anglia	2009 –2011

SELECTED AWARDS AND DISTINCTIONS

- Fellow of the Royal Society of Canada, 2025
- A. G. Huntsman Award, 2024
- The Alumni UBC Achievement Awards (Research and Innovation), 2024
- Docteur Honoris Causa, Institut Agrocampus, France 2024
- Canada Research Chair (Tier II) in Ocean Sustainability and Global Change 2019 – 2028
- Clarivate Analytics Global Highly Cited Researchers 2018-2024
- Reuters' top 20 world's most influential climate scientists 2021
- E. R. Steacie Memorial Fellowship Award 2020
- Killam Faculty Research Fellowship 2019 – 2020
- Member of the Royal Society of Canada College of New Scholars, Artists and Scientists, 2017
- The Prix d'Excellence Award, International Council for the Exploitation of the Seas, 2018
- The Ehor Boyanowsky Academic of the Year Award 2017
- Peter Wall Institute for Advanced Studies Wall Scholar Award, 2017 – 2018
- Peter Wall Institute for Advanced Studies Early Career Scholar Award, 2013 – 2014
- National Geographic Fellowship, National Geographic Society, 2011 – 2014

EDITORIALSHIP

- Discover Oceans (Editor-in-Chief, 2023 to present)
- Global Change Biology (Associate Editor, 2017 to present)
- ESA's Frontiers in Ecology and the Environment (Associate Editor, 2017 to present)
- Frontier in Marine Sciences (Associate editor, 2014 to present)

- Fisheries Oceanography (Editorial board, 2015 to present)
- Fish and Fisheries (Editorial board, 2009 to 2024)

INTERNATIONAL LEADERSHIP

- Director, Solving the Sustainability Challenges at the Food-Climate-Biodiversity Nexus (2022-2028)
- Coordinating lead author, Biodiversity and Climate Change Assessment (USA, Canada, Mexico) (2024-2026)
- Author of the Core Writing Team, IPCC AR6 Synthesis Report (2021-2023)
- Director (Science), Nippon Foundation-Nereus Program (2013 – 2022)
- Expert member, Expert Group on Scenarios and Models for Biodiversity and Ecosystem Services, Intergovernmental Platform on Biodiversity and Ecosystem Services (2017 – now).
- Coordinating Lead Author, IPCC Special Report on the Ocean and Cryosphere in the Changing Climate (2017-2019)
- Lead Author, Global Assessment, Intergovernmental Platform on Biodiversity and Ecosystem Services Global Assessment (2016 – now)
- Coordinating Lead Author, Intergovernmental Platform on Biodiversity and Ecosystem Services: Policy support tools and methodologies for scenario analysis and modelling of biodiversity (2014 – 2016)
- Lead Author, IPCC Assessment Report 5 Working Group II. (2011 to 2014)
- Lead Author, Global Biodiversity Outlook 4 (2012 – 2014)

MOST SIGNIFICANT CONTRIBUTIONS

1.1 Revealing climate impacts and risks on marine biodiversity and fisheries: My research forms an important foundation for detecting and attributing observed impacts of climate change on global and regional marine biodiversity and fisheries. My research showed that ocean warming in the last four decades has already created a ‘signature’ in global fisheries catch records (Cheung *et al.* 2013 *Nature*). This study inspired a wide range of subsequent research and publications internationally. My research team extended this study to different regions, biomes and time scales, and found ubiquitous signatures of ocean warming in fisheries e.g., in West Africa (Belhabib, Lam, Cheung 2016), coral reef (Maharaj...Cheung 2018 *Mar. Ecol. Prog. Ser.*) and over archaeological time-scale (Hills...Cheung 2022 *Env. Biol. Fish.*). We also extended the framework to study multiple climatic stressors, and elucidated the compounded impacts of warming and deoxygenation on pelagic fish stocks and fisheries (Clarke.. Cheung 2022 *Fish. Fish.*). Furthermore, we applied the framework to analyze data obtained from restaurant menus and found detectable impacts of ocean warming on restaurant seafood offerings (Ng & Cheung 2022 *Env. Biol. Fish.*). The findings on restaurant seafood are widely covered in media and even inspired a collaboration with an artist to co-produce an installation art for public display in Arizona.

My research program generated pioneering and impactful outputs on future scenarios of biodiversity and fisheries under climate change. We developed state-of-the-art simulation models and generated one of the first global projections and maps of changes in marine species richness (Cheung *et al.* 2009 *Fish Fish*) and potential fisheries catches (Cheung *et al.* 2010 *Glob. Chang. Biol.*) under climate change. These global maps and their updates (Cheung *et al.* 2018 FAO Report) were selected to be graphical displays in the Summary for Policy-makers of the IPCC WGII Report and Synthesis Report of the 5th and 6th Assessment. These studies were widely referred to by academics, NGOs and governments. My research also showed that large benefits would be gained for marine biodiversity and fisheries by achieving the Paris Agreement target (Cheung *et al.* 2016 *Science*). My research expanded our knowledge on climate impacts on marine social-ecological systems in many dimensions, including economics (Lam *et al.* 2016 *Sci. Report*), food security (Golden..Cheung *et al.* 2016 *Nature*; Cheung *et al.* 2023 *Nature Climate Change*) and wellbeing of Indigenous communities (Weatherdon *et al.* 2015 *PloS One*; Marushka...Cheung *et al.* 2019 *PloS One*).

1.2 Using biological traits to understand and predict fishes’ vulnerabilities to human stressors. My research program contributed substantially to using biological traits of fishes to study their vulnerabilities and risks to fishing and climate change. We developed a fuzzy logic expert system to calculate an index of vulnerability of fishes to fishing (Cheung et al. 2005 *Biol. Conserv.*). We showed that fishing-induced changes in community structure of exploited species are predictable from such index (Cheung et al. 2007 *Mar. Ecol. Prog. Ser.* 2007), and that some assemblages such as those in seamounts and deep sea have the highest vulnerability (Morato, Cheung.. 2007 *J. Fish Biol.*). This index is reported in FishBase and used by NGOs to develop sustainable seafood guides. My research team then extended this method to study the vulnerability of fishes to multiple climatic stressors (Jones & Cheung 2018. *Glob. Chang. Biol.*) e.g., showing that deep sea species have exceptionally high sensitivity and low adaptive capacity to climate change (Cheung *et al.* 2022 *Envir. Biol. Fish.*). We extended the trait-based approach to examine the interactions between climate change and fishing on conservation risks of fishes (Cheung *et al.* 2018 *Glob. Chang. Biol.*) and their adaptive capacity to warming and hypoxia (Clarke *et al.* 2022 *Envir. Biol. Fish.*).

1.3 Understanding ocean-based climate solutions. Using the scenarios and modelling, my research program provided unique evidence and insights into the effectiveness of ocean-based interventions to mitigation and adaptation. We showed that more conservation-oriented fisheries management would be needed to rebuild depleted fish biomass under climate change and that the potential for rebuilding is strongly limited by ineffective climate mitigation (Cheung et al. 2022. *Glob. Chang. Biol.*). We used our climate-fish model to show that the ‘spill-over’ effects of protecting the high seas or sustainable management of their fisheries could reduce the negative climate impacts on fisheries in countries’ waters (Cheung *et al.* 2017 *Fish. Fish.*). We also developed and used a new class of modelling (Oyinlola..Cheung. 2020 *Glob. Chang. Biol.*) to highlight the opportunities for and limits to adaptation for global mariculture under climate change (Oyinlola ... Cheung 2022 *Glob. Chang. Biol.*). In addition, we contributed to quantifying the carbon sequestration potential of large pelagic fishes and concluded that unsustainable fisheries in the high seas had negatively impacted ocean’s mitigation potential (Marini, Cheung et al. 2021 *Sci. Adv.*).

RESEARCH FUNDING

(a) Research or equivalent grants (indicate under COMP whether grants were obtained competitively (C) or non-competitively (NC))

Granting Agency	Subject	COMP	\$ CAD (total)	Year	Role
WWF-UK	Understanding the implications of ocean circulation disruption on ecosystems, wildlife and coastal communities	C	\$182,800	2026-2027	Principal Investigator
ArcticNet – Partnered Research Program	Lower trophic level blue food potential in Canada’s coastal Arctic	C	\$264,500	2025-2028	Co-Principal Investigator
NSERC Discovery Grant	Fish and fisheries under marine extremes and compound events: responses, resilience and solution options	C	390,000 (78,000 per year)	2024-2029	Principal Director
SSHRC	Solving the Sustainable Challenges at the nexus of Food, Climate and Biodiversity	C	2,499,940	2022-2028	Director

CIHR	Adapting to climate change impacts on food security for coastal First Nations in British Columbia (Full)	C	1,526,176	2019-2023	Co-Principal Investigator
Lenfest Ocean Program	The potential for transboundary marine protected areas to build climate-resilience for biodiversity conservation and fisheries sustainability in the Eastern Tropical Pacific Ocean	C	528,471	2023-2025	Principal Investigator
Mitacs (match funding from Ocean Wise)	Kelp seaforestation in British Columbia under climate change	C	135,000	2024-2028	Principal Investigator
Nippon Foundation	UBC - Nereus Program (Phase 3)	NC	4,700,000	2017 - 2020	Principal Investigator
Nippon Foundation	UBC - Nereus Program (Expansion)	NC	2,607,464	2016 - 2020	Principal Investigator
NSERC	Discovery Grant	C	200,000	2018 - 2023	Principal Investigator
CIHR	Adapting to climate change impacts on food security for coastal First Nations in British Columbia (exploration)	C	100,000 (UBC: 15,000)	2018-2019	Co-Principal Investigator
SSHRC (Partnership grant)	Ocean Canada Program	C	2,500,000 (Cheung: 290,017)	2014 – 2020	Principal Investigator
Nippon Foundation	UBC - Nereus Program (Phase 2)	NC	5,325,339	2014 - 2017	Principal Investigator
Belmont Forum	Reef-Futures – The futures of reef services in the Anthropocene	C	1,000,000 (UBC: 75,000)	2019-2022	Co-Principal Investigator
Belmont Forum	Scenarios of marine biodiversity and evolution under exploitation and climate change	C	1,000,000 (UBC: 150,000)	2019-2022	Co-Principal Investigator
Peter Wall Institute for Advanced Studies	Wall Scholar Award	C	25,000	2017-2018	Principal Investigator
Norwegian Research Council	An interdisciplinary investigation into scenarios of national and international conflicts in the Svalbard zone under a changing climate in the Arctic	C	17,226	2016 - 2019	Principal Investigator

Wellcome Trust	Quantifying the Human Nutritional Value of Global Fisheries	C	1,500,000 (UBC: 135,000)	2015 - 2017	Principal Investigator
MEOPAR A Network of Centres of Excellence (NCE)	Canadian Ocean Acidification Research Network (COARnet)	C	1,100,000 (Cheung: 76,500)	2015-2018	Principal Investigator
NSERC Strategic Partnership Grant	Quantifying climate-dependent and anthropogenic impacts on ecosystem services in the Subarctic Pacific Ocean: State-of-the-art observational tools to inform policy and management	C	707,100 (Cheung: 70,000)	2015-2018	Co-Investigator
Peter Wall Institute for Advanced Studies	International Research Roundtable	C	37,750	2014	Principal Investigator
NSERC (Discovery grant)	Vulnerability and biological responses of marine fishes to climate change	C	110,000	2012 - 2017	Principal Investigator
Peter Wall Institute for Advanced Studies	Adaptive responses of marine fisheries to climate change	C	20,000	2013-2014	Principal Investigator

INVITED PRESENTATION

- Von Ball Lecture, University of Alberta, Edmonton, Canada, March 2025 (invited speaker)
- Ecology Seminar, Scripps Institute of Oceanography, University of San Diego, La Jolla, USA, Jan 2025 (invited speaker)
- A.G. Huntsman Lecture, Bedford Institute of Oceanography, Halifax, Canada, Dec 2024 (invited speaker)
- Re-envisioning the Governance and Management of Ocean Migratory Biodiversity Workshop, Dubai, Nov 2024 (invited speaker)
- Management Procedures in a Changing Climate Webinar Series, HarvestStrategies.org, July 2024 (invited speaker and panelist)
- Blueprints for Prosperity: Building Resilience in SIDS through Blue Economy Innovation (virtual), UN Small Island Development States Conference, UNITAR Global Water Academy, York University, May 2024 (invited speaker and panelist)
- Royal Society of Canada (RSC) Dialogues @ Massey College: Water is Life: Sustainability of Our Oceans, Toronto, Canada, March 2024 (invited speaker and panelist)
- Ocean Futures Scenarios and Pathways workshop, Berlin, Germany, Dec 2023 (invited)
- UNFCCC COP28 South Africa Pavilion: African Science for the African Position, Dubai, Dec 23 (invited)
- UNFCCC COP28 Canada Pavilion: The Future of Blue Carbon in Climate Mitigation: Raising Awareness and Unlocking Potential, Dubai, Dec 2023 (invited)
- Workshops on incorporating the impacts of climate change on ocean systems into the social cost of carbon (virtual), Oct 2023 (invited)
- ICCAT Climate Change Expert Meeting, virtual, “Vulnerability and impacts of climate change on Atlantic tuna fisheries”, July 2023 (keynote)
- Intergovernmental Panel on Climate Change: Climate Change: Resilience, Transformation and Equity, Bangkok, May 2023 (invited)
- Credit Valley Conservation (Ontario Chapter), virtual, May 2023 (invited)
- Institut Pertanian Bogor, Indonesia, February 2023 (invited)
- COP15 Biodiversity Webinar: Fish are Carbon Engineers, virtual, December 2022 (invited)
- United Nations’ Food and Agriculture Organization - Spotlight on coastal areas in Small Island Developing States: from vulnerability to resilience at COP27, virtual, November 2022 (invited)
- BECI Science Workshop, virtual, May 2022 (invited)
- Genomic BC Genomics Forum on Blue Economy, April 2022 (invited)
- UBC Storm Club, March 2022 (invited)
- Ocean Decade Laboratories: A Healthy and Resilient Ocean – Ecosystem Services & Monitoring in Asia Pacific, March 2022 (invited)
- Ecological Effects of Climate Change in the Ocean, University of Victoria, March 2022 (invited)
- BluEco - Can the economy of the oceans really be sustainable?, February 2022 (invited)
- UBC Climate Change Research Symposium, October 2021 (invited)
- Ocean Nexus Virtual Open House, September 2021 (invited)
- National Centre for Atmospheric Research CCIS 2021 Webinar Series: Ecological Impacts & Climate Intervention Strategies, July 2021 (invited)

- Metcalf Institute panel on agriculture, food security, and climate change, University of Rhode Island, June 2021 (invited)
- Co-developing ocean futures that achieve climate, biodiversity and ecosystem resilience goals. Monaco Ocean Week, virtual, March 2021 (invited)
- Integrated assessment for the ocean. Ecosystem Services-Integrated Assessment Model workshop, virtual, October 2020 (invited)
- Projecting the impacts of marine heatwaves on fisheries. University of Washington, USA, virtual September 2020 (invited)
- The future of seafood sustainability. University of Vigo, Spain, Dec 2019 (invited)
- The future of seafood sustainability. University of Liverpool, U.K., Nov, 2019. (invited)
- Projecting the future of marine biodiversity and fisheries. University of Bern, Switzerland, Oct 2019 (invited)
- Challenges to Transboundary Fisheries Management Under Climate Change, Marine Region Forum, Berlin, Germany Sept 2019 (invited)
- The future of global seafood supply. Gordon Research Conference, Hong Kong. July 2019 (invited)
- Sustainable blue economy, IIED, London, U.K., 25-26 February 2019 (invited)
- Oceans and the Future of the Food Workshop, Stanford University, 28-30 February 2019 (Invited)
- International Ocean Commission-UNESCO Conference on the Decade of Ocean Sciences, Paris, 10-12 September 2018 (invited)
- Seminar “The Future of Fishes and Fisheries under Climate Change”, University of São Paulo, Brazil, 6 August 2018 (invited)
- Workshop on Climate Change and Fisheries, CONICET, Buenos Aires, Argentina, 3-4 August 2018 (invited)
- Pacific Institute for Climate Solution Seminar, Simon Fraser University, Burnaby, Canada, 3 May 2018 (invited)
- Workshop on ocean priorities, National Geographic Society, Washington D.C., U.S.A., 18 – 20 April 2018 (invited)
- Bevan Series, School of Fisheries and Aquatic Sciences, University of Washington, U.S.A., 1 March 2018 (Invited)
- Ecology Seminar, Scripps Institute of Oceanography, University of San Diego, La Jolla, U.S.A., 20 Feb 2018 (Invited)
- Symposium on Law Enforcement and Science: Restoring Filipino Fisheries. Quezon City, The Philippines, 12 Jan 2018 (invited)
- Seminar “The future of fishes and fisheries under climate change”, State Oceanic Institute, Xiamen, China, 4 Jan 2018 (invited)
- Symposium on Predicting the Future Oceans, Nippon Foundation, Tokyo, Japan, 20 – 21 Dec 2017 (invited)
- Workshop on Marine Spatial Planning under Climate Change, Conservation International, Santa Barbara, 4-8 Dec 2017 (invited)
- Adapting Marine Protected Area to Climate Change, Galapagos, Ecuador November 24-30, 2017 (Invited speaker)
- Presentation “Vulnerable of exploited deep sea species”, Woods hole Oceanographic Institute, Aug 26, 2017 (Invited speaker)
- Seminar “The future of fishes and fisheries under climate change”, Yellow Sea Fisheries Research Institute, Qingdao, China, 9 Aug 2017 (invited)
- The 18th meeting of the United Nations Open-ended Informal Consultative Process on Oceans and the Law of the Sea was held between May 15 and 19, 2017 in New York. (Invited panelist speaker)
- Sustainable Development Goals Ocean Conference Preparatory meeting, United Nations, New York, USA, 17 February 2017 (Invited)
- Seminar, University of the Philippines, Manila, the Philippines, 13 January 2017 (Invited)
- Scoping Meeting for the Intergovernmental Panel on Climate Change Special Report on the Oceans and Cryosphere, 5-9 December 2016, Monaco (Invited)

- Aquatic Macroecology Symposium, British Ecological Society, London, U.K., 30 Sept. 2016 (invited)
- Seminar, Universidad en Merida, 25-26 August 2016 (invited)
- Seminar, Centre for the Environment, Harvard University, 30 March 2016 (invited)
- IPBES Workshop on Scenario Modelling for Global and Regional Assessment, 26 – 27 January 2016 (invited speaker)
- Seminar, Yellow Sea Fisheries Research Institute, Qingdao, China. 16 November 2015 (invited speaker)
- Seminar, Third Institute of Oceanography, State Oceanic Administration, Xiamen, China. 12 November 2015 (invited speaker)
- Seminar, Royal Geographic Society, Hong Kong. 4 November 2015 (invited speaker)
- Seminar, Credit Suisse, Hong Kong. 5 November 2015 (invited speaker)
- Seminar, Department of Biology, University of Quebec in Rimouski. 24 September 2015 (invited speaker)
- ICES-PICES workshop: Strategic Initiative on Climate Change Impacts on Marine Ecosystems. “Oceans system under climate change”, Seattle, USA, 10-12 August 2015 (invited speaker)
- Symposium on management of marine ecosystems under climate change, Tokyo, Japan, 14 April 2015 (Invited speaker).
- ICES-PICES Conference: “Third International Symposium on the Effects of Climate Change on the World’s Oceans”, Santos, Brazil, 23-17 March 2015 (invited speaker)
- Workshop on environmental journalism in China, Hong Kong, 2-4 June 2014 (invited speaker)
- The “Future Fish” workshop, World Conservation and Monitoring Centre, Cambridge, U.K. 23-15 March 2014 (invited speaker)
- National Taiwan University, “Climate change effects on marine ecosystems and fisheries”, Taipei, 10 Dec 2013 (invited speaker)
- Tokyo University, “Climate change effects on marine ecosystems and fisheries”, Tokyo, 10 October 2013 (invited speaker).
- IPCC Summer Institute, University of Washington, “Projection and attribution of climate change effects on marine fisheries”, Friday Harbour Laboratory, WA, 11 – 13 September 2013 (invited speaker).
- A.I. Climate Workshop, Norwegian University of Science and Technology, “Climate change impacts on global marine ecosystems”, Trondheim, Norway, 3 – 5 September 2013 (invited speaker).
- Society for Conservation Biology Annual Meeting, “Projecting climate change effects on marine conservation”, Baltimore, 25 July 2013 (invited speaker).
- Society for Experimental Biology Annual Meeting, “Shrinking of fishes exacerbates climate change impacts on marine ecosystems”, 4 – 6 July 2013 (invited speaker).
- PICES/ICES, “Global assessment of the implications of climate change on the spatial distribution of fish and fisheries”, St. Petersburg, Russia, 20-22 May 2013.
- World Ocean Commission, “Highseas marine protected areas”, Oxford, U.K., 8-10 April.
- CoastalWeb, “Changing Ocean Research Unit”, Vancouver, Canada, 1 Oct 2012.
- 2012 Forum on Fisheries Science and Technology, Shanghai, China 17-18 Oct 2012 (invited speaker).
- Annual Meeting of Regional Association for Research on the Gulf of Maine, Portsmouth, NH, USA, 9 Oct 2012 (keynote speaker).
- Seminar series, Intergovernmental Oceanographic Commission, DFO, “Projecting large-scale effects of climate change on marine ecosystems and fisheries”, Sydney, B.C., Canada, 13 Sept. 2012.
- East China Sea Fisheries Institute, China, “Impacts of climate change on marine ecosystems and fisheries”, Shanghai, China, 22 May 2012.
- Minister of Environment, Peru, “Projecting impacts of climate change on fisheries in Peru”, Lima, Peru, 5 February 2012.

- Pacific Biological Station, DFO, “Effects of climate change on marine ecosystems and fisheries”, Nanaimo, Canada, 10 Sept 2011.
- Panelist talk and discussion, “Is biodiversity going the way of the Dodo?” – The Royal Society Summer Science Week discussion Forum, 8 July 2011.
- “Projecting impacts of climate change on marine biodiversity and fisheries”, Imperial University, U.K., 3 May 2011.
- SIZEMIC meeting “Body size in a changing world”, Institute of Marine Sciences, Barcelona, 21-22 June 2010.
- Seminar series, Department of Geography, University of Sheffield, Sheffield, U.K., 12 April 2010.
- Communities and Coral Reefs: Managing for Resilience meeting, UNEP-WCMC and South Pacific Regional Environment Programme, Apia, Samoa, 27 January 2010.
- UNEP-WCMC Global Ocean Biodiversity Initiative workshop, “Projecting impacts of climate change on marine biodiversity and fisheries”, Cambridge, U.K., 16 January 2010.
- Workshop on Identifying Area of Special Interest for Protection in the Antarctic, UNEP-WCMC, “Impacts of climate change on marine biodiversity in the Antarctic”, Cambridge 7-8 October 2009.
- Seminar series, School of Biological Sciences, University of Plymouth, Plymouth, 11 November 2009.
- Vulnerability of fishing in the Commonwealth of Nations, the Commonwealth Foundation, London, 28 September 2009.
- Seminar Series, Western Australia Institute of Marine Science, University of Western Australia, 10 July 2009.
- Changes in Marine and Terrestrial Productivity under Climate Change – Impact and Feedback, Technical University, Risø, Denmark, 12-13 May 2009.
- Using IPCC Class Models in Managing Living Marine Resources, Princeton University, Princeton, 15 – 17 June 2009.
- “Projecting impacts of climate change on marine biodiversity and fisheries”, The Rebellion Conference, University of East Anglia, Norwich, 25-26 January 2009.
- Climate Change Impacts in the East Pacific, WWF, San Jose, Costa Rica, 11 February 2009,
- Trade-offs between Conservation and Socio-economic Objectives in Managing a Tropical Marine Ecosystem, South China Sea Fisheries Institute, Guangzhou, 25 May 2006
- Application of Ecopath with Ecosim to Assess the South China Sea Fisheries, East China Sea Fisheries Institute, Shanghai, 12 April 2006

CONFERENCE PARTICIPATION (ORGANIZER, KEYNOTE SPEAKER, ETC.)

- Ocean Conference of Youth – Canada 2025, Vancouver, Canada. 29 Aug 2025 (keynote speaker)
- Third United Nations Ocean Conference, Nice, France, 9 – 12 June 2025 (Panel co-organizer and speaker)
- One Ocean Science Congress, Nice, France, 3-6 June 2025 (scientific committee, panel co-organizer and speaker)
- Simposio Argentino de Ictiologia, Ushuaia, Argentina, 25-28 Nov 2024 (keynote speaker)
- International Conference on the Impact and Adaptation of Climate Change on Fisheries, Taiwan, Oct 2024 (keynote speaker)
- Charting a Sustainable Future for Canada: Celebrating the Release of Sea Change (virtual), September 2024 (organizer and speaker)
- CISOS 2024: Scientific-Academic Forum: Conference on Integrating Knowledge for a Sustainable Ocean, San Jose, Costa Rica, June 2024 (oral presentation)

- Symposium on Data Management for Equitable Ocean Governance in Africa, Centre for Coastal Management, University of Cape Coast, May 2024 (keynote speaker)
- Expert Panel on Solving the Sustainability Challenges at the Food-Climate-Biodiversity, World Fisheries Congress, Seattle, USA, March 2024 (panel organizer and speaker)
- The 6th EMBRIO International Symposium, Indonesia, November 2023 (keynote speaker)
- Gordon Research Conference on Urbanization, Water and Food Security, Lucca, Italy, July 2023 (invited speaker)
- Effects of Climate Change on the World's Ocean Conference, Bergen, April 2023 (invited speaker)
- Congreso Futuro, Santiago and Coyhaique, Chile, January 2023 (invited speaker)
- United Nations Ocean Conference, Fisheries Management as Climate Action, Lisbon, June 2022 (invited speaker)
- 3rd GO2NE Oxygen conference, May 2022, virtual (Keynote speaker)
- Climate Adaptation in Practice (CAP) Symposium, March 2022, virtual (Organizer)
- 3rd Symposium on Functional Marine Biodiversity, September 2021, virtual (Keynote speaker)
- ASLO 2021 Aquatic Sciences Meeting, June 2021, virtual (Plenary speaker)
- Our Fish Symposium “Delivering on climate and biodiversity targets through better fisheries management”, April 2021, virtual (Keynote speaker)
- Shastri Indo-Canadian Institute- Golden Jubilee Conference, March 2021, virtual (Keynote speaker)
- GEO BON Open Science Conference, 6-10 July 2020, virtual (Keynote speaker)
- Japan GeoScience Union – American Geophysical Union Open Science Meeting, 24-28 May, virtual (Keynote speaker)
- PICES Annual Meeting, Yokohama, Japan, 29-31 October 2019 (invited keynote speaker).
- International Conference: Effects of Climate Change in the Changing Ocean, June 2 – 8, 2018 (Workshop and session organizer, speaker)
- International Flatfish Symposium, Saint Malo, France, November 11-16, 2017 (Keynote speaker)
- Impact World 2017, October 11-13, 2017, Potsdam, Germany (Plenary keynote speaker)
- American Fisheries Society, August 22-23, 2017, Tampa, U.S.A. (Keynote speaker)
- The 50th Annual Meeting of the Fisheries Society of the British Isles, July 3 – 7, 2017, Exeter, U.K. (Plenary keynote speaker)
- Climate change impacts in the Arabian Gulf Region, March 13-15, 2017 Abu Dhabi, UAE (Plenary keynote speaker)
- International Conference on Scenarios and Models of Biodiversity and Ecosystem services in Support of Decision Making, Montpellier, France, 24-26 August 2016 (invited plenary speaker)
- International Marine Conservation Congress, St. John's, Canada, 28-29 August 2016 (invited speaker)
- Workshop on the vulnerability of coastal communities in the South Pacific under climate change, Centre for Oceans Solution, Monterey Bay, USA, 8-10 June 2016 (co-organizer)
- Oceans in a High-CO₂ World, Hobart, Australia, 3-6 May 2016 (invited plenary speaker)
- International Symposium on IUU Fishing, Royal Institute for International Affairs, London, 15-16 February 2016 (invited plenary speaker)
- Sustainability of China Fisheries Conference, Xiamen, China. 9-12 November 2015 (invited plenary speaker)
- IMBIZO IV Marine and Human Systems: Addressing multiple scales and multiple stressors. “Impacts of global change on upwelling ecosystems and fisheries”, Trieste, Italy, 26 – 30 October 2015 (invited plenary speaker).
- IPCC Workshop on Regional Climate Projections and their Use in Impacts and Risk Analysis Studies, San Jose, Brazil, 15 – 18 September 2015 (invited participant, poster presentation)
- Our Common Future under Climate Change, “Responses of marine ecosystems to climate change and ocean acidification”, Paris, France, 6-9 July 2015 (keynote speaker)
- ICES-PICES Conference: “Third International Symposium on the Effects of Climate Change on the World's Oceans”, Santos, Brazil, 23-17 March 2015 (workshop co-convener, oral presentation)

- The Johan Hjort Symposium on Recruitment Dynamics, “Vulnerability of fish recruitment to climate change”, Bergen, Norway, 6 – 9 October 2014 (keynote speaker).
- 2nd Small-scale Fisheries Congress: “Scenarios for coastal fisheries under climate change: Impacts, resilience and adaptation potential”, Merida, Mexico, 21 – 26 September 2014 (oral presentation).
- International Fish Biology and Fisheries Symposium, “Global fisheries under climate change”, 27 – 28 August 2014 (invited speaker).
- IMBER Open Science Conference: Future Ocean, “Assessing the integrated impacts of climate change and fishing on biogeography of marine species”, Bergen, Norway, 23 – 27 June 2014 (oral presentation).
- PICES FUTURE Open Science Meeting, “Uncertainties in projecting future changes in living marine resources”, Big Island, Hawaii, USA, 15 – 18 April (invited workshop participant and speaker).
- ICES Annual Science Conference, “Responses of living marine resources to climate change and variability: learning from the past and projecting the future”, Reykjavik, Iceland, 23-27 September 2013 (session organizer and speaker).
- Second International Workshop: Ocean acidification impacts on fisheries and aquaculture economics and industries, Monaco, 11-13 Nov 2012 (invited working group leader).
- 2nd International Symposium on Effects of Climate Change on the World’s Oceans, Yeosu, Korea, 13-20 May 2012 (invited speaker).
- Annual Meeting of the American Association for the Advancement of Science (AAAS) 2012, Vancouver, 17 – 20 February 2012 (invited symposium speaker).
- National Council For Science and the Environment Conference, Symposium “Hanging in the pH Balance: Impacts of Ocean Acidification on Food Security”, Washington D.C., U.S.A., 18 January 2012. (invited symposium speaker)
- American Fisheries Society Annual Meeting 2011, Seattle, 7 September 2011 (invited symposium speaker).
- Society for Experimental Biology Annual Meeting, Glasgow, 1-4 July 2011 (invited speaker).
- AMEMR Symposium, University of Plymouth, Plymouth, 26-29 June 2011 (Plenary speech and scientific steering committee).
- French Research Bureau - Diversitas Conference: Biodiversity Scenarios: Current progress and challenges, “Projecting Climate Change Effects on Global Marine Biodiversity and Fisheries”, Paris, France, 30 March 2011 (Plenary speaker).
- Symposium “Climate change: altering the physics, ecology and socioeconomics of fisheries”, American Association for the Advancement of Science Annual meeting, 19 February 2011 (co-organizer and speaker).
- Marine Conservation Forum 2010, EWS-WWF UAE, Abu Dhabi, 14-16 Dec 2010 (invited speaker).
- Workshop on Integrated ecosystem modeling; building our capacity to understand and manage marine ecosystems in a changing world (WKE2E) and the Workshop on Models for the Ecosystem Approach to Fisheries in the Mediterranean sea (WKMED), 15-19 November 2010 (Plenary speaker).
- Oceans and Climate Change - The scientific basis for meeting future challenges for coastal development and poverty reduction, Swedish International Development Cooperation Agency and Stockholm Resilience Center, 12 October 2010 (Invited panelist).
- Capitol Hill Ocean Week 2010, National Marine Sanctuary Foundation, Washington D.C., 8 - 10 June 2010 (invited speaker).
- Climate Change Effects on Fish and Fisheries, Sendai, 17-20 April 2010 (speaker).
- Changes in Marine and Terrestrial Productivity under Climate Change – Impact and Feedback, Technical University, Risø, Denmark, 12-13 May 2009 (Invited speaker).
- Using IPCC Class Models in Managing Living Marine Resources, Princeton University, Princeton, 15 – 17 June 2009 (Invited speaker).
- Symposium “Facing Our Uncertain Future: The Reality of Climate-Change Adaptation in the Ocean”, American Association for the Advancement of Science Annual meeting, 13 February 2009 (Invited panelist).

- Symposium on Climate Change Impacts in the East Pacific, WWF, San Jose, Costa Rica, 11 February 2009 (Invited speaker).
- Climate Change and Fisheries, World Conservation Congress, Barcelona, 7 October 2009 (invited speaker).
- Symposium International Symposium on Effects of climate change on the world's oceans, Gigón, 17-23 May 2008 (Invited speaker).
- World Fisheries Congress, Vancouver, 2004 (poster).
- Fisheries Assessment and Management in Data-limited Situations. Alaska Sea Grant Symposium, Anchorage, October, 2003 (speaker).

MEMBERSHIPS ON SCHOLARLY AND OTHER COMMITTEES

- Member, New Frontier Research Fund – Transformation Mid-term Review Panel (2024-2025)
- Steering Committee and Scientific Committee, Blue Food Futures Program (2023 – present)
- Scientific Advisory Committee, Great Bear Sea MPA Network (2025 – now)
- International Scientific Committee, One Ocean Science Conference (2024 – present)
- Member of the international review committee, Science Foundation Ireland (2024 – present)
- Scientific Advisory Committee, BC Extreme Heatwave Working Group (2023 – now)
- Scientific Advisory Committee, BC Adaptation to Ocean Acidification and Hypoxia (2021 – 2023)
- Scientific Advisory Committee, SNAPP-Climate Resilience Fisheries Project (2020 – 2023)
- Member, Tri-council Interdisciplinary Review Committee (2022 – present)
- New member selection committee, The College of New Scholars, Artists and Scientists, The Royal Society of Canada (2022-present)
- Scientific Steering Committee, Ocean Futures Scenarios and Pathways workshop (2023)
- Scientific Steering Committee, Intergovernmental Panel on Climate Change Scenario Workshop (2022 – 2023)
- Scientific Steering Committee Member, Ocean Decade Collaborative Center for the Northeast Pacific's region (2022 - present)
- Scientific Steering Committee Member, Pacific Salmon Foundation, (2022 - present)
- Scientific Advisory Board Member, Ocean Wise, (2019 - present)
- Scientific Advisory Committee member, UNESCO Ocean and Climate Platform (2019 – present)
- Expert member, Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services Scenarios and Modelling Task Force (2018 – present)
- Scientific Steering Committee member, Future Earth's Biodiscovery Program (2011 – 2020)
- Expert member, IUCN Species Specialist Group on Groupers and Wrasses (2007 –present)
- Technical Advisory Board member, the Ocean Conservancy (2016 – present)
- Science Advisory Committee, Northern Shelf Bioregion MPA Network, British Columbia, Canada (2017 - present)
- Member of the Scientific Advisory Board, CERES (2015 – 2020)
- Scientific Advisory Board member, Marine Protected Area Network, Fisheries and Oceans Canada (2017 – present)
- Executive committee member, Hong Kong Marine Conservation Society (2000 – 2002)
- Scientific Advisor, WWF Canada (2012 – 2018)
- Scientific Advisor, SharkTruth (2011 – 2014)
